

CLINICALLY INTEGRATED SUPPLY CHAIN

BETTER OUTCOMES. REDUCED COSTS.

IMPROVING SUPPLY CHAIN MANAGEMENT THROUGH CLINICAL INTEGRATION

- ✔ **OUTCOMES:** Positively impact patient outcomes through personalized medicine.
- ✔ **EFFICIENCY:** Use prescriptive analytics to inform care delivery.
- ✔ **REVENUE:** Improve revenue capture of inventory in clinical settings.
- ✔ **COST:** Streamline inventory management and reduce waste.

ACHIEVE ALIGNMENT

There's a magnitude of potential savings with tight alignment between finance and clinical teams. Our integration experts help hospitals and health systems implement improvement strategies and create synergy between clinical and financial systems.

INTEGRATE WORKFLOWS AND STREAMLINE PROCESSES

Seamless integration and collaboration across the enterprise between clinical and financial functions can improve patient outcomes, reduce redundancies, and facilitate compliance with industry regulations. We help you simplify complex clinical and financial workflows to streamline processes and achieve greater operational efficiency.

IMPROVE SUPPLY CHAIN MANAGEMENT

Our strategic approach to EHR and ERP integration allows physicians, other clinicians, and supply chain management to closely collaborate with a shared goal that improves quality outcomes and reduces costs. As a HIMSS Analytics certified organization, we leverage their Clinically Integrated Supply Outcomes Model (CISOM) to benchmark current state integration and help develop a strategic roadmap for you to achieve CISOM Stage 7.

ENHANCE REVENUE CAPTURE

Creating synergy between the supply chain and revenue cycle provides a significant opportunity to optimize reimbursements, minimize compliance risk, and deliver a better patient experience. With successful integration, supply chain and revenue cycle managers can leverage actionable insights to better manage costs, optimize budget and long-range planning, and improve margins. Our clients are able to leverage their IT systems to better capture otherwise potentially lost revenue.

BUILD YOUR PROGRAM

EXCEPTIONAL CONSULTANTS. SUSTAINABLE RESULTS.

Avaap is an industry-focused, cross-platform management and technology consulting firm specializing in Epic, Cerner, Infor, Tableau, Workday and other applications.
