

# FULLFILL PROCUREMENT

AUTOMATE YOUR PROCUREMENT PROCESS AND FULFILL AT PEAK EFFICIENCY

## REDUCE SUPPLY COSTS. STREAMLINE PROCUREMENT.

Hospitals and health systems are under pressure to reduce supply chain costs while maintaining the same quality of care. One of the primary obstacles preventing organizations from maximizing savings is the complexity of the ordering process.

FullFill Procurement™ is specially designed to work with Infor (Lawson) software to streamline the procurement process, helping hospitals and healthcare systems enforce contract compliance, reduce data entry, remove costs from the supply chain, and ensure staff has the supplies they need, when they are needed, and at the right price.

Avaap has partnered with Stryker to automate your procurement process. With FullFill Procurement, you can submit one PO in your Infor (Lawson) system to order reprocessed and OEM products.

## REDUCE TIME SPENT ON POs

### SOUND FAMILIAR?

*We spend a lot of time placing and completing orders manually.*

### CORE ISSUES

- Lacking Automation
- Manual Data Entry
- Time Spent Placing POs

### REAL WORLD SOLUTIONS

FullFill Procurement helps reduce manual transactions and minimize time spent placing purchase orders (POs).

## MAXIMIZE EFFICIENCY

### SOUND FAMILIAR?

*We have frequent stock outages and interruptions.*

### CORE ISSUES

- Staff Missing Important Supplies
- Higher Margin of Error
- Lack of Second Source Visibility

### REAL WORLD SOLUTIONS

Improve supply chain processes by eliminating stock outages and interruptions. Increase Infor usability through automation and empower end users with procurement setup options.

## SAVE MONEY

### SOUND FAMILIAR?

*We have very high supply chain and procurement costs.*

### CORE ISSUES

- High Procurement Costs
- Costly Manual Errors
- Maintaining Contract Compliance

### REAL WORLD SOLUTIONS

FullFill Procurement helps maximize savings by reducing procurement costs and reducing risk.

# SOLUTION IN-DEPTH

THE COMPLEXITY OF THE ORDERING PROCESS, DECONSTRUCTED.

## VENDOR CONFIGURATION

Stryker is assigned as the primary vendor for all reprocessible items. Original equipment manufacturer (OEM) or distributor is assigned as the secondary vendor for all new items.

## PO SUBMISSION

Customer facility creates PO for 100% demand of item A. PO #1 for 100 of item A is issued to Stryker.

## PO RECEIPT

We receive the PO electronically and confirm availability by 855 PO acknowledgment (POA). We confirm by POA that we have 70 of item A; 30 are canceled.

## PRODUCT DELIVERY

Facility receives 70 of item A from Stryker against PO #1. Facility receives 30 of item A from secondary vendor against PO #2.

## WORKFLOW SOLUTION

Facility receives POA 855: PO #1 is automatically reduced to 70 for item A from Stryker. Workflow automatically creates PO #2 for 30 of item A from assigned secondary vendor.
