Need in-house expertise for your Infor software?
Avaap staffing solutions can help

100% Dedicated to Infor

Need to fill complex and challenging positions to support your Infor M3 upgrade or implementation strategy? Avaap staffing solutions provides the best talent for hard to fill IT positions that require Infor M3 expertise.

Avaap staffing solutions include contract, contract-to-hire and permanent professionals who specialize in Infor software. Our combined consultant resources include more than 80 professionals supporting Infor M3 in the Fashion, Equipment Rental, Food & Beverage, financial, retail, distribution and manufacturing industries, as well as the public sector.

Adding Value for Competitive Advantage

Avaap knows how to locate the right talent for your business, enabling your organization to reduce time-to-fill and achieve faster time to value. Avaap consultants have on average more than 8 years Infor M3 experience, forming a network of professionals with technical and suite-specific functional capabilities for sales, distribution, supply chain, manufacturing, financial, maintenance, and procurement.

Avaap also provides expertise for end-to-end project lifecycle implementations through our proven methodology and can be a trusted partner for your project success. Avaap delivers results by enabling you to quickly and efficiently fill open positions with top Infor M3 talent. As a leading Infor Alliance and Services partner 100 percent dedicated to Infor, Avaap has the expertise, experience and resources to support successful implementations, upgrades and consulting.

For more information on how Avaap can help staff your next Infor M3 project or manage your Infor investment, contact info@avaap.com.
